

## **SUSTAINABILITY POLICY**

Britannia Pharmacy is committed to help reduce the impact it has on the environment and prevent unnecessary waste.

As such, all Pharmacies are encouraged to adhere to the following principals of sustainability;

1. All Pharmacies to actively encourage patients to return their unused and expired medication for safe and environmentally friendly disposal.
2. All Pharmacies to speak to patients and not order medication unnecessarily
3. Promoting an environment of “think before you print” ensuring unnecessary paper and printing use is kept to a minimum.
4. Ensuring all paper and other materials are recycled where appropriate.
5. Promotion of CFC free inhalers
6. Providing medication bags to patients made from recycled materials
7. Staff are employed in close vicinity to their employed stores. This is to encourage environmentally friendly commuting of staff members.
8. Utilising environmentally friendly energy sources such as motion activated lights
9. Encourage patients to collect their medicines in person to reduce our carbon footprint whilst making deliveries
